Subject: Public health and concussion policy

Good morning Micah –

Hope you are doing well. I was wondering if you might be able to connect me with someone at the School of Public Health or the Medical school who might be interested in the area of concussions, school policies and parental decision making. We have identified this as an area in need of research, and we are starting to reach out to find collaborators and, eventually, funding sources. We think the first step will be a literature search to establish what is already known, so if you have a grad student who might be looking for such an experience, please keep us in mind!

Sincerely,

Kara Morgan, Ph.D.

Subject: Megacity Security Conference - India

Dear Bill and Qinghua,

Hope you are both doing well.

Prof. Jenkins and I are trying to put together a group of faculty to partner with India Gateway to apply for a grant to develop a conference about “megacity security” and India, supported by the U.S. Consulate Mumbai, to take place in Mumbai in September 2015. Would you be able to help us connect with CPH faculty who might have relevant expertise or interest? Here’s the brief summary:

PAS Mumbai seeks a grantee to plan and implement a Megacity Security Conference to take place in September 2015 in Mumbai and invites proposals. At the end of the conference, the grantee will produce a “white paper” of recommendations for megacity security that can guide policymakers and possibly be available to the public. Topics for the conference could include, but are not limited to, homeland security, counterterrorism, safety and security of critical infrastructure and industries, technology and security, modernization of law enforcement agencies, national security policy, interoperability between multiple government agencies, cooperation between law enforcement and communities/civil society, public safety, media and security, and international security cooperation.

The opportunity, with further details can be found at <http://www.grants.gov/web/grants/view-opportunity.html?oppld%3D271648>

Regards,
Ratnesh
